Description

Baby Bath Compactum - Melamine in White – Code B0005

It is worth noting that our bath compactums have been a consistent and reliable product for many years, as you may confirm with your mother and grandmother.

This design has withstood the test of time and remains an excellent option for parents.

I am pretty sure your parents also used this bath compactum when you were a baby!

Not only does the baby bath compactum make bath time more efficient and enjoyable, it also eliminates the risk of back strain for parents.

The changing area is conveniently located adjacent to the bath, promoting safety and accessibility.

Additionally, our bath compactum comes with a bath included in the price

The bath compactum features four small drawers and two doors, which conceal a height-adjustable shelf.

Our baths do not come with a drain pipe and must be emptied manually after use.

It is recommended to only fill the bath with a small amount of water when bathing a baby.

Overall, our baby bath compactum is a practical and reliable option for parents seeking a comprehensive solution for bathing and changing their baby.

Using a bath compactum for your baby has several benefits, including:

- 1. Convenience:** A bath compactum offers a comprehensive solution for bathing and changing your baby in one convenient location.
- 2. Safety:** The changing area is located right next to the bath, reducing the risk of accidents and keeping everything you need in one place.
- 3. Back support:** A bath compactum is designed to eliminate back strain, which is often a concern for parents when it comes to bathing and changing their baby.
- 4. Space-saving:** A bath compactum takes up less space than separate items for bathing and changing, which can be helpful if you have limited space in your home.
- 5. Storage:** Our bath compactums come equipped with drawers and a shelf, providing additional storage space for baby essentials like towels, diapers and clothing.
